

Dear Bank of Montana Customers,

We hope this letter finds you well and that you are enjoying this beautiful spring weather!

The purpose of this letter is to provide notification that the Missoula Parking Commission will be repairing the parking lot structure located immediately to the west of the bank beginning around June 1, 2025. The project is expected to be completed by the end of November 2025. Unfortunately, during the construction, this parking lot will be closed for the entirety of this project. We sincerely apologize for the inconvenience and wish to share some alternate parking options:

Park Place Garage – This parking garage is directly across Pattee street from Bank of Montana/the Millennium Building. Instead of turning right onto Bank Street, into our parking lot as you normally would do, you would turn left into the parking garage entrance. This is the same structure that Market on Front is located in. It is approximately 50 yards from the parking lot to the entrance of Bank of Montana. The first 1 hour of parking in the Park Place Garage is free of charge.

Riverside Parking Lot - This parking lot is located just south of the bank on the other side of the Northwestern Energy substation. The north most row, up against the NWE substation will be designated for Bank of Montana customers. You should see signage referencing bank parking. These designated parking spots are free of charge.

Bank of Montana wants to be as accommodating as possible during this time. Our night drop box will continue to be accessible, and please do not hesitate to reach out and we can assist in facilitating alternative options for deposits and other banking business to make this process as headache-free as possible. Again, we apologize for the inconvenience.

Please do not hesitate to call or email with questions at 406-829-2662 or operations@bankofmt.com

Kind Regards,

Emilie Johnston
EVP
Bank of Montana
